

B-VENT ADAPTER

Part number 946-861

Sell into homes that already have a chimney

The Natural Vent Adapter (B-Vent) converts select Regency Direct Vent gas stoves to natural-draft venting, so they can use an existing masonry, wood, or B-vent chimney opening retrofit and replacement without removing the existing chimney system that is already in-place.

WHERE IT FITS

Masonry chimney : Clay-lined; liner if inside diameter > 6"

Wood-burning chimney : Solid-fuel flue; liner if inside diameter > 6"

B-vent gas chimney : Existing B-vent or new 4" flex pipe

KEY HIGHLIGHTS

Broad chimney compatibility — masonry, solid-fuel wood, or B-vent; 4" liner or flex

Built-in safety spill switch — automatically shuts off gas on a blocked or reversed draft

Flexible routing — up to 35 ft vertical and 4 ft horizontal; offsets allowed

APPLICABLE MODELS

GS33, GS33E

C34, C34E

RC500E

IDEAL FOR RETROFITS & REPLACEMENTS :

Utilize existing
chimney systems
